Butterfly Compact Portable 12 needle commercial embroidery machine

The B-1201B/T is a light weight portable industrial sewing machine. The machine is ideal for most all embroidery jobs from large garments to pocket size designs to caps. The machine is ideal for both start ups and existing commercial embroidery shops for both full service embroidery and samples. The machine is portable enough to attend shows yet strong enough to tackle jacket backs, leather goods, etc. This machine will benchmark against other machine in its class.
